WORK EXPERIENCE

Persistence AI
persistence.ai
Remote

Special Projects Manager
March 2020 - Present
As Special Projects Manager, I work with the leadership team to identify, plan, and execute on key projects and initiatives that are crucial for company success.

Favored Nations
favorednations.org
Los Angeles, CA
(Remote)

Head of Development
August 2019 - Present
Favored Nations is a 501(c)(3) nonprofit on a mission to change the world, for those who give a shit. As Head of Development I translate the team's ideas into elegant, functional software.

Heller PR
heller-pr.com
Los Angeles, CA
(Remote)

Lead Software Developer
Nov 2018 - Present
I work alongside the founder to develop creative software solutions for a wide array of problems, including automation, web development, and more.

Imagicode, LLC
imagicode.co
Raleigh, NC

Co-Founder & Instructor
January 2019 - June 2020
Acquired June 2020. Imagicode travels to elementary schools across the Triangle area teaching computer science in after-school clubs and hosts STEM summer camps. Acquired by Betabox, Inc. June 2020 to expand direct-to-consumer offerings.

Aftercare.com
Clinton, NC

Software Development Intern
May 2018 - Aug 2018, Jan 2019 - May 2019
As a summer intern, I wrote automation scripts and built an analytics dashboard using Node.js. After, I was contracted to develop the company's iOS and Android app, Aftercare-by-Text, using the Ionic framework.

PawBoost
pawboost.com
Raleigh, NC

Technical Marketing Intern
Nov 2016 - May 2017
I began by writing code to scrape websites for data in order to increase our customer base. Over time, my responsibilities were shifted to creating and managing our Facebook pages, expanding our online presence to other countries, and building Pawboost's Reddit presence from scratch.
